

Foreign Military Training Report

**Fiscal Years
2017 and 2018**

Joint Report to Congress

Volume I

The estimated cost of this report or study for the Department of Defense is approximately \$64,000 in Fiscal Years 2017 - 2018. This includes \$12,000 in expenses and \$52,000 in DoD labor.

Foreign Military Training Report

**Fiscal Years
2017 and 2018**

Joint Report to Congress

Volume I

This report is jointly presented by the Department of Defense and the Department of State pursuant to Section 656 of the Foreign Assistance Act (FAA) of 1961 (codified as amended at 22 U.S.C. § 2416), and Section 652 of the Department of State, Foreign Operations, and Related Programs Appropriations Act, 2008 (P.L. 110-161).

Refer questions to the appropriate office of the Legislative Liaison.

EXECUTIVE SUMMARY

1. This report is presented pursuant to Section 656 of the Foreign Assistance Act (FAA) of 1961, as amended (22 U.S.C. § 2416), and Section 652 of the Consolidated Appropriations Act, 2008 (P.L. 110-161). Section 656 of the FAA, requires:

a. ANNUAL REPORT.

IN GENERAL. – Not later than January 31 of each year, the Secretary of Defense and the Secretary of State shall jointly prepare and submit to the appropriate congressional committees a report on all military training provided to foreign military personnel by the Department of Defense (DoD) and the Department of State (DOS) during the previous fiscal year and all such training proposed for the current fiscal year.

EXCEPTION FOR CERTAIN COUNTRIES. – Paragraph (1) does not apply to any NATO member, Australia, Japan, or New Zealand, unless one of the appropriate congressional committees has specifically requested, in writing, inclusion of such country in the report. Such request shall be made not later than 90 calendar days prior to the date on which the report is required to be transmitted. [NOTE: No such request has been received this year.]

b. CONTENTS. – The report described in subsection (a) shall include the following:

1. For each military training activity, the foreign policy justification and purpose for the activity, the number of foreign military personnel provided training and their units of operation, and the location of the training.
2. For each country, the aggregate number of students trained and the aggregate cost of the military training activities.
3. With respect to U.S. personnel, the operational benefits to the U.S. forces derived from each military training activity and the U.S. military units involved in each activity.

c. FORM. – The report described in subsection (a) shall be in unclassified form but may include a classified annex.

d. AVAILABILITY ON THE INTERNET. – All unclassified portions of the report described in subsection (a) shall be made available to the public on the Internet through the Department of State.

Additional notes:

- a. Section 652 of the Consolidated Appropriations Act of 2008 requires that the report be submitted by the Secretary of Defense and the Secretary of State to the Committees on Appropriations by the date specified in the FAA, Section 656.
- b. This report was generated using data submitted by multiple sources, including Security Assistance Organizations, Combatant Commands, and other DoD agencies. Volume I lists the operational benefits to U.S. forces for training and education programs and other security cooperation activities; a description of each type of activity; a summary of all

training provided, along with the foreign policy justification for each country; country activity training lists; and explanations for the purpose of each training activity.

- c. The report contains approximately 50,200 individual events. In Fiscal Year (FY) 2017, approximately 78,700 students from 155 countries participated in training, the total cost of which was approximately \$930.3 million. The individual events are in alphabetical order within geographic regions by country and fiscal year, and are listed in three main categories – education and training activities provided under the Foreign Military Sales (FMS) Program, DOS-funded activities, and DoD-funded activities.
- d. DOS-funded activities reported include: International Military Education and Training (IMET); Foreign Military Financing (FMF)-funded training; International Narcotics and Law Enforcement (INL) programs; African Contingency Operations Training and Assistance (ACOTA); the Global Peace Operations Initiative (GPOI); and the FAA-authorized drawdown for narcotics education and training.
- e. DoD-funded activities reported include: the Regional Defense Combating Terrorism Fellowship Program (CTFP); Section 1004 of the National Defense Authorization Act (NDAA) for FY 1991, Drug Interdiction and Counter-Drug Training Support (CDTS) (repealed by Section 1001 of the NDAA for FY 2017, with similar authority now provided by 10 U.S.C. 333); Combatant Command Security Cooperation Activities (e.g., counter-narcotics, humanitarian demining); and 10 U.S.C. 2282 (“Global Train and Equip”) (repealed by Section 1241 of the NDAA for FY 2017, effective 270 days after enactment, with similar authority now provided by 10 U.S.C. 333); and other Non-Security Assistance programs.
- f. Miscellaneous DoD activities reported include: the Service Academy Foreign Student Program; the Aviation Leadership Program; Professional Military Education (PME) Exchanges; activities sponsored by the Regional Centers, including the Daniel K. Inouye Asia-Pacific Center for Security Studies (APCSS), the George C. Marshall European Center for Security Studies (Marshall Center), the William J. Perry Center for Hemispheric Defense Studies (WJPC), the Near East South Asia Center for Strategic Studies (NESA Center), and the Africa Center for Strategic Studies (ACSS); and certain Combatant Command activities.

READING THIS REPORT

All activities are listed by the fiscal year in which the training occurred, not by the fiscal year in which the funding for the training was provided. Most data in the report are current as of October 1, 2017. Some future/planned fiscal year costs were not finalized as of the data-collection cutoff date. Many future/planned fiscal year events were listed before the foreign operations budget was passed and funding allocations were decided.

This report is composed of two volumes:

Volume I	Volume II
	
Classification : Unclassified	Classification : Unclassified

Each volume is divided into sections. Each major section includes its own Table of Contents (TOC); for example, Volume I, Section III, includes a TOC containing the list of countries and pages where training data appears. Each TOC is also divided by the geographic regions below:

- Africa
- East Asia and Pacific
- Europe
- Near East
- South Central Asia
- Western Hemisphere

Section IV - COUNTRY TRAINING ACTIVITIES

Section IV contains the available unclassified listing of completed training events.

1. This section will break out each training program's courses as training lines.
2. Summary totals for each program as well as overall totals are available.

[illegible]

Note:

- Country and program totals listed in this section may not match totals listed in Volume I, Section III, due to the removal of any ongoing/future training.
- If a course started in or before the current fiscal year but is not scheduled to end until sometime in the next fiscal year, it is reflected in the listings included in Volume II (rather than Volume I), since the training may still be ongoing at the time of publication.

Volume II

Section I – COUNTRY TRAINING ACTIVITIES

Section I only lists on-going and planned training.

1. This report volume is similar in format to Volume I, Section IV.
2. Events listed in Volume I, Section IV, are not repeated.
3. Planned training for the next fiscal year was collected at the end of the actual reporting fiscal year. Because of this, planned data may be incomplete and is not updated during the report process.

[illegible]

Notes:

- Future/Planned fiscal year courses frequently list costs or students as “0”; this reflects a “To Be Determined” status.
- The Future/Planned fiscal year IMET dollars represent the value of the training requested by each country and the estimated number of students. The Future/Planned fiscal year IMET dollars and students reported DO NOT reflect the Future/Planned fiscal year IMET allocation level for each country.

Other Report Notes

Foreign military training figures for the Regional Defense Combating Terrorism Fellowship Program (CTFP) in this report are known to be different from those figures provided in this year's CTFP Congressional Report. These discrepancies are due to different statistical and data collection methods as well as differing congressional reporting requirements.

SECTION I. OPERATIONAL BENEFITS TO U.S. FORCES

The 2010 Quadrennial Defense Review (QDR) noted that the strength and influence of the United States is deeply intertwined with the fate of the broader international system - a system of alliances, partnerships, and multinational institutions that our country has helped build and sustain for more than 60 years. Because of this, the QDR concludes, the United States must be prepared to support broad national goals of promoting stability in key regions, providing assistance to nations in need and promoting the common good.

U.S. security cooperation is an important instrument in executing this strategy. Security cooperation advances U.S. security interests by building defense partnerships for the future. Security cooperation also prepares the United States, allies, and partner nations for unforeseen circumstances.

Security cooperation involves the following operational benefits:

1. Building defense relationships that promote specific U.S. security interests.
2. Developing allied and partner military capabilities for self-defense and coalition operations, including allied transformation.
3. Improving information exchange and intelligence sharing to harmonize views on security challenges.
4. Providing U.S. forces with peacetime and contingency access and en route infrastructure.
5. Influencing the development of foreign military institutions and their roles in democratic societies.

For details on the benefits of specific programs, see Section II.

SECTION II. DESCRIPTION OF PROGRAMS

A. General

Security cooperation directly contributes to U.S. national security and foreign policy objectives by helping allies and partners improve their defense capabilities and enhance their ability to participate in missions alongside U.S. forces. The following section outlines the range of security cooperation programs through which the U.S. Government provides military training and describes each program's particular benefits.

B. Programs Funded By Foreign National Funds - Foreign Military Sales (FMS)

Foreign Military Sales (FMS) involves government-to-government sales of U.S. defense articles, services, and training. Total FMS sales in Fiscal Year (FY) 2017 (articles and training) were approximately \$41.93 billion. Security Cooperation Education and Training, including professional military education and technical training related to equipment purchases, is sold to foreign countries through the FMS program. Security Cooperation Education and Training sales to foreign countries in FY 2017 totaled more than \$462.4 million.

C. Programs Funded By The Department Of State (DOS)

1. Foreign Military Financing (FMF)

Foreign Military Financing (FMF) finances the acquisition of U.S. defense articles, services, and training through grants. Training financed by these grants supports U.S. foreign policy and regional security goals, enhances bilateral and cooperative bilateral military relationships, and enables allies and friendly nations to improve defense capabilities and interoperability to work toward common security goals and participation in joint missions. Congress appropriates FMF funds in the International Affairs budget; DOS manages the funds for eligible allies and friendly nations, and the Department of Defense (DoD) implements the program. Because FMF funding is used to purchase U.S. defense articles, services, and training, FMF contributes to a strong U.S. defense industrial base, which benefits both the U.S. armed forces and U.S. workers. Security Cooperation Education and Training grants to foreign countries in FY 2017 totaled more than \$39.8 million.

2. International Military Education And Training (IMET)

The International Military Education and Training (IMET) program is a low-cost, highly effective component of U.S. security assistance. In FY 2017, the United States provided approximately \$115.2 million in training to students from 114 allied and partner nations. Additional IMET training is provided to NATO member countries, but is not detailed in this report.

The overall objectives of the program are to:

- Advance the goal of regional stability through effective, mutually beneficial military-to-military relations through increased understanding of security issues and the means to address them and improved defense cooperation among the United States and foreign countries;
- Provide training that augments the capabilities of participant nations' military forces to support combined operations and interoperability with U.S. forces; and

- Increase the ability of foreign military and civilian personnel to instill and maintain democratic values and protect internationally recognized human rights in their own government and military.

Training provided under the IMET program assists U.S. allies and friendly nations in professionalizing their militaries through participation in U.S. military educational programs. The IMET program introduces military and civilian participants to critical institutions and elements of U.S. democracy such as the judicial system, legislative oversight, free speech, equality issues, and commitment to human rights. The resulting military competence and self-sufficiency of U.S. allies and partner nations provide a wide range of benefits to the United States in terms of collective security, stability, and peace. As foreign militaries improve their knowledge of U.S. military principles and integrate them into their own forces, military cooperation is strengthened. Similarly, opportunities for military-to-military interaction, information sharing, joint planning, and combined force exercises, as well as essential requirements for access to foreign military bases and facilities, are notably expanded. IMET fosters important military linkages essential to advancing the global security interests of the United States and improving the capabilities of its allies and partners.

The IMET program's mandatory English-language proficiency requirement establishes an essential baseline of communication skills necessary for students to attend courses. This requirement also facilitates the development of valuable professional and personal relationships that provide the United States access to and influence in a critical sector of society that plays a pivotal role in supporting and transitioning to democratic governance.

IMET objectives are achieved through a variety of professional military education and technical training activities conducted by DoD for international military and civilian officials. These activities include formal instruction that involves more than 4,000 courses taught at approximately 150 military schools and installations to more than 5,000 international students annually.

- IMET-1 are one-year funds. The annual Department of State, Foreign Operations, and Related Programs Appropriations Act (FOA) provides IMET funding for the current fiscal year, to be obligated by September 30 of each year.
- IMET-2 are two-year funds. In FY 2012, the provision to retain funds until expended changed to permit a certain amount of IMET funds to remain available through September 30 of the following fiscal year, rather than until expended. These funds are also known as Q-year funds.
- IMET-X are x-year funds. From FY 2002-2011, the FOA also included the provision allowing a certain amount of IMET funds to remain available until expended. These funds are also known as no-year funds.

The Expanded IMET program is a subset of the IMET program that specifically focuses on fostering greater understanding of and respect for civilian control of the military, introduces students to military justice systems, and promotes the development of strong civil-military relations by showing key military and civilian leaders how to overcome challenges that can exist among armed forces, civilian officials, and legislators.

A less formal, but still significant, part of IMET is the U.S. Field Studies Program, which introduces students to the U.S. way of life, including regard for democratic values, respect for

individual civil and human rights, and belief in the rule of law.

3. International Narcotics And Law Enforcement (INL)

The DOS Bureau for International Narcotics and Law Enforcement Affairs (INL) partners with DoD to combat international drug trafficking, terrorist organizations, and other transnational crime groups by providing training (and other support) to strengthen law enforcement and security institutions in key countries in Central and South America (particularly Colombia). Using both Andean Counterdrug Initiative (ACI) and International Narcotics Control and Law Enforcement (INCLE) funding, INL-funded programs are designed to blunt the impact of international drugs and crime by strengthening foreign governments' ability to identify, confront, and disrupt the operations of these groups before they reach U.S. soil.

In countries such as Mexico, where narco-terrorism continues to pose a threat, such assistance is provided to a broader range of police and military, including counterdrug units and personnel.

4. Peacekeeping Operations (PKO), FAA Section 551

Funds for PKO are appropriated to DOS. The PKO legislation authorizes the provision of assistance to partner nations and international organizations on such terms and conditions as the President may determine, including for use in regional security peacekeeping operations and other programs carried out in furtherance of U.S. national security interests. Such assistance may include reimbursement to DoD for expenses incurred pursuant to Section 7 of the United Nations (UN) Participation Act of 1945, but may not exceed \$5,000,000 in any fiscal year unless a greater amount is specifically authorized by the President. Each year, DOS uses FAA, Section 632(b) MOAs to transfer some of the PKO funding to the Defense Security Cooperation Agency (DSCA) in support of specific requirements. The U.S. Embassy within a benefitting country or the respective Combatant Command defines PKO requirements and prepares the Memorandum of Request for those requirements that will be executed by DSCA as a PKO building partnership capacity (BPC) program.

PKO training listed in this report include funds utilized by:

a. Global Peace Operations Initiative (GPOI)

The GPOI program began in 2005 as the U.S. contribution to the G8 Action Plan for Expanding Global Capability for Peace Support Operations. The GPOI is a U.S. Government-funded security assistance program intended to help address major gaps in United Nations (UN) and regional peace operations by:

- Building partner country capabilities to train and sustain peacekeeping proficiencies;
- Increasing the number of capable military troops and formed police units (FPUs) available for deployment;
- Facilitating the preparation, logistical support, and deployment of military units and FPUs to peace operations;
- Building capacity in partner countries to address the following UN peace operations' critical shortages: helicopters and engineer logistics, medical, and transportation units.

Peace operations are under the most severe strain that they have faced since the UN was

founded: multiple, simultaneous crises are driving the demand for peacekeepers to an all-time high, and highly complex environments require updating capabilities and capacities. Addressing these gaps will require a long-term commitment, and the GPOI is one of the premiere U.S. tools for helping partners contribute to international peace operations. The GPOI currently has 52 active partners, including three regional organizations.

b. African Contingency Operations Training and Assistance (ACOTA)

The ACOTA program provides training of African troops in peacekeeping and humanitarian crisis response. For information on this program contact USAFRICOM's J-5.

c. Partnership For Regional East Africa Counterterrorism (PRACT)

Established in 2009, the PRACT is a U.S.-funded and implemented multi-year, multi-faceted program designed to build the capacity and cooperation of military, law enforcement, and civilian actors across East Africa to counter terrorism in a comprehensive fashion. It uses law enforcement, military, and development resources to achieve its strategic objectives, including:

- Reducing the operational capacity of terrorist networks;
- Developing a rule of law framework for countering terrorism in partner nations;
- Enhancing border security;
- Countering the financing of terrorism; and
- Reducing the appeal of radicalization and recruitment to violent extremism.

d. Trans-Sahara Counterterrorism Partnership (TSCTP)

Established in 2005, the TSCTP is a multifaceted, multi-year strategy implemented jointly by DOS, the U.S. Agency for International Development, and DoD to assist partners in West and North Africa increase their immediate and long-term capabilities to address terrorist threats and prevent the spread of violent extremism. Areas of support include:

- Enabling and enhancing the capacity of North and West African militaries and law enforcement to conduct counterterrorism operations;
- Integrating the ability of North and West African militaries and law enforcement, and other supporting partners, to operate regionally and collaboratively on counterterrorism efforts;
- Enhancing border-security capacity to monitor, restrain, and interdict terrorist movements;
- Strengthening the rule of law, including access to justice, and law enforcement's ability to detect, disrupt, respond to, investigate, and prosecute terrorist activity;
- Monitoring and countering the financing of terrorism (such as that related to kidnapping for ransom); and
- Reducing the limited sympathy and support among communities for violent extremism.

D. Programs Funded By The Department Of Defense

Note: FY 2017 was a transition year in which training formerly authorized under Section 1004 of the National Defense Authorization Act (NDAA) for FY 1991 (Counter-Drug Training Support (CDTS)) and 10 U.S.C. 2282 (Global Train and Equip (GT&E)), both of which were repealed at various times during FY 2017, are now authorized exclusively under 10 U.S.C. 333. As of the production of the FY 2017-2018 report, program data for training events under these programs, and additional training activities now covered by Section 333, have not been converted over in the training data systems. The conversion is expected to occur in time for the FY 2018-2019 report.

1. Afghanistan Security Forces Fund (ASFF)

Afghanistan Security Forces Fund (ASFF). The ASFF is authorized to be used to train, equip, and provide related assistance to Afghanistan National Security Forces (ANSF), including the provision of equipment, supplies, services, facility repair, renovation, and construction. The Under Secretary of Defense (Comptroller) USD(C) coordinates the ASFF Financial and Activity Plan (FAP) for approval by the Afghanistan Resources Oversight Council (AROC), composed of the Principal Deputy Under Secretaries for Policy (USD(P), for Acquisition, Technology, and Logistics (USD (AT&L)), and for Comptroller (USD(C)), as well as senior representatives from the Joint Staff, the U.S. Central Command (USCENTCOM), and the Office of the Assistant Secretary of the Army (Financial Management and Comptroller). The USD(C) then coordinates the ASFF FAP with DOS and submits the program Congressional Notification by Budget/Sub-budget Activity Groups (BAG/SAG). Only a portion of ASFF is used to fund BPC cases. The U.S. Army provides the fund allotments for these to DSCA. Requirements for ASFF cases are received from the Combined Security Transition Command - Afghanistan (CSTC-A).

2. Coalition Readiness Support Program (CRSP)

Coalition Readiness Support Program (CRSP). The CRSP is an authority in the Coalition Support Funds legislation, which is part of the annual DoD Appropriations Act, and is funded with Defense-Wide Operation and Maintenance (DW O&M) appropriations. The CRSP may be used to provide specialized training, procure supplies and specialized equipment, and loan such equipment on a non-reimbursable basis to coalition forces supporting U.S. military operations in Afghanistan and Iraq (and for FY 2017, in Syria). Combatant Commands may submit requests for CRSP funds to the USD(P) for prioritization, coordination, and submittal to the Secretary of Defense for approval. Funds made available for the CRSP prior to FY 2012 are available until expended.

3. Counterterrorism Partnerships Fund (CTPF)

The Overseas Contingency Operations (OCO) request includes funding for the Counterterrorism Partnerships Fund (CTPF) to continue implementing the President's goal of a sustainable, partnership-focused approach to counterterrorism (CT). Originally proposed by the President on May 28, 2014, at the U.S. Military Academy in West Point, New York, the CTPF provides the ability to enable partner nations to deter and defeat terrorist threats. This account

allows DoD to respond quickly to evolving terrorist threats in the USCENTCOM and U.S. Africa Command (USAFRICOM) areas of responsibility, and other areas as determined by the Secretary of Defense, consistent with statute. DoD will use CTPF funding to build on existing tools and authorities to enhance the U.S. ability to support partner nations in CT operations, applying the right solution to the right requirement.

DoD's CTPF request focused on providing CT support to partner nations for capacity-building, augmenting U.S. capability to support partners in CT operations, and enabling DoD to respond to unexpected crises. The preliminary allocation of CTPF funds are organized by region. The mix of initiatives and amounts may change as adversaries act and DoD prioritizes these initiatives to enhance our partner nations' capabilities to respond most effectively.

4. Disaster Response (Humanitarian Assistance)

The goal of disaster-response training is an improved host nation capability to respond to disasters effectively, thereby reducing or eliminating the need for a U.S. military response. Humanitarian Assistance (HA) is authorized under 10 U.S.C. 2561 to provide transportation of humanitarian relief or for other humanitarian purposes, including training, in disaster response/preparedness. Disaster-response training provides the necessary skills for the civilian leaders of foreign governments and institutions to organize emergency workers; hospital, medical, and administrative personnel; and military members to respond to natural disasters. Normally, HA and training conducted under 10 U.S.C. 2561 are not provided to foreign militaries. However, selected host nation armed forces personnel are occasionally included in the training to demonstrate the military's role in supporting civilian agencies during emergencies. In some instances, disaster-response training is provided directly to the host nation's military when it is the only government agency capable of responding to the natural disaster. Additionally, disaster-response programs contribute to regional stability and support both ambassadorial mission plans and Combatant Command theater security cooperation strategies.

5. DoD Regional Centers For Security Studies

The Regional Centers for Security Studies support the National Defense Strategy and DoD security cooperation priorities with programs designed to enhance security, deepen understanding of international security challenges and trends, foster bilateral and multilateral partnerships, improve defense-related decision-making, and strengthen cooperation among U.S. and regional military and civilian leaders.

Each Regional Center, based on guidance from the USD(P) and its respective Combatant Command, tailors its programs specifically to assist with meeting the Secretary of Defense's key goals in each region. Common topics are regional security issues, defense planning, and civil-military relations.

Regional Centers have been established for all major regions of the world. The five Regional Centers are:

- Africa Center for Strategic Studies (ACSS)
- Daniel K. Inouye Asia-Pacific Center for Security Studies (APCSS)
- The William J. Perry Center for Hemispheric Defense Studies (WJPC)
- The George C. Marshall European Center for Security Studies (GCMC)

- The Near East South Asia Center for Strategic Studies (NESA)

Typical activities include in-resident academic programs, one- to three-week seminars conducted in the region and research studies. In addition, the Regional Centers maintain communications with their former participants through electronic mail, web sites, newsletters, and country-based alumni organizations. Enabling legislation (10 U.S.C. Section 342, as added by section 1241(m) of the NDAA for FY 2017) for the Regional Centers establishes them as international venues for bilateral and multilateral research, communication, exchange of ideas involving military and civilian participants, and training. Because their activities reinforce and are relevant to many training and education activities, Regional Centers activities are included in this report to provide context.

6. Drug Interdiction And Counter-Drug Activities: Counter-Drug Training Support (CDTS) (Section 1004)

Section 1004 of the NDAA for FY 1991 was repealed by the NDAA for FY 2017, and the authority to conduct counter-drug training of foreign forces now resides in 10 U.S.C. 333. However, program data for this training have not yet been fully converted to 10 U.S.C. 333. Thus, such training is categorized under Section 1004 for purposes of this report.

Counter-Drug Training Support (CDTS) includes deployments for training of foreign forces at the request of an appropriate law enforcement agency official, as defined in Section 1004 of the National Defense Authorization Act (NDAA) for FY 1991. The purpose of the CDTS was to conduct counternarcotics-related training of foreign military and law enforcement personnel. Special Operations Forces (SOF) and conventional forces conduct the counter-drug training for light infantry, aviation, coastal, riverine, and rotary-wing operations, as well as staffs associated with counter-drug operations.

7. Foreign Assistance Act (FAA) - FAA Drawdown

Section 506(a)(1) of the FAA (22 U.S.C. 2318) authorizes the President to direct the drawdown of defense articles from the stocks of DoD, defense services of DoD, and military education and training, not to exceed \$100,000,000 in any fiscal year, if the President determines and reports to the Congress that an unforeseen emergency exists that requires immediate military assistance to a foreign country or international organization, and that such emergency requirements cannot be met under the authority of the Arms Export Control Act or any other law except Section 506 of the FAA.

Under section 506(a)(2) of the FAA, the President may direct the drawdown of articles and services from the inventory and resources of any agency of the U.S. Government and military education and training from DoD if the President determines and reports to the Congress that it would be in the national interest of the United States to draw down such articles, services, and military education and training.

8. Global Train And Equip (GT&E) (Section 2282)

The Secretary of Defense, with the concurrence of the Secretary of State, has the authority under 10 U.S.C. 2282 (now authorized under 10 U.S.C. §333) to provide equipment, supplies, defense services, training, and small-scale military construction to build the capacity of a foreign country's national military forces participating in or supporting on-going allied or coalition stability operations that benefit the national security interests of the United States or to conduct CT operations. Section 2282 authority may also be used to build the capacity of a

foreign country's national-level security, maritime, and border security forces that conduct CT operations.

10 U.S.C. 2282 was repealed by the NDAA for FY 2017 (effective 270 days after enactment of the NDAA), and the authority to provide similar assistance of foreign forces now resides in 10 U.S.C. 333. However, program data for this training have not yet been fully converted to 10 U.S.C. 333. Thus, such training is categorized under Section 2282 for purposes of this report.

9. Global Security Contingency Fund (GSCF) (Section 1207)

Global Security Contingency Fund (GSCF). The Global Security Contingency Fund (GSCF) was signed into law in Section 1207 of the National Defense Authorization Act (NDAA) for Fiscal Year 2012 (P.L. 112-81) as a pilot program expiring in FY 2017. Under this authority, DoD and DOS can provide assistance to enhance the capabilities of a partner country's national military forces and other national security forces that conduct border and maritime security, internal defense and CT operations, as well as the government agencies responsible for such forces; and to participate in or support military, stability, or peace support operations consistent with U.S. foreign policy and national security interests. Program funds may also be used to provide assistance for the justice sector (including law enforcement and prisons), rule of law programs, and stabilization efforts. GSCF assistance programs must include elements that promote observance of and respect for human rights and fundamental freedoms, and respect for legitimate civilian authority within the partner country. Section 1207 specifies the level for DoD and DOS contribution of funds to the GSCF and provides transfer authority.

10. Mine Action (MA) Programs

Under 10 U.S.C. 407, the United States provides Mine Action (MA) assistance to many countries throughout the world to assuage the dangers of landmines, promote regional peace and stability, and advance U.S. foreign policy and national security goals. A collateral benefit of the program is the enhancement of operational readiness for participating U.S. forces. Within the overall MA program, DoD provides training to foreign nations in mine-clearance operations, mine-awareness education and information campaigns, assistance in the establishment of MA assistance centers, emergency medical care, and leadership and management skills needed for foreign partners to conduct a national-level MA program successfully. When called upon for MA training, the ultimate goal of DoD participation is to develop a self-sustaining, indigenous demining capability within each recipient country.

Explosive-ordnance disposal and engineer personnel normally conduct MA training, using the "train-the-trainer" concept, with augmentation from special operations forces (SOF) as needed. The Combatant Commands execute the MA program, facilitating military-to-military engagement opportunities. Such participation allows the Combatant Commanders to work closely with Country-Teams to show mine-affected countries how military forces can support the civilian population. By participating in these activities, the Combatant Commands and the Country Teams demonstrate the U.S. commitment to provide direct, bilateral humanitarian assistance, relieve suffering, improve the socio-economic environment, and promote regional stability. \$15 million of annual OHDACA funding is earmarked for HMA under 10 U.S.C. 407.

11. Pakistan Counterinsurgency Capability Fund (PCCF)

Pakistan Counterinsurgency Capability Fund (PCCF). PCCF provides assistance to build

and maintain the counterinsurgency capability of the Pakistan Security Forces, including military forces and the Pakistan Frontier Corps, and is authority to provide program management, equipment, supplies, services, training, facility and infrastructure repair, renovation, and construction. PCCF is a DOS authority and appropriation. A related authority, the Pakistan Counterinsurgency Fund (PCF), was a DoD authority that expired in FY 2010.

FY10 PCCF was appropriated to the Department of State and transferred to the Department of Defense. FY10 PCCF expired at the end of FY2011.

12. Regional Defense Combating Terrorism Fellowship Program (CTFP)

The Regional Defense Combating Terrorism Fellowship Program (CTFP) is a DoD security cooperation program conducted under 10 U.S.C. 345. It was established to meet an emerging and urgent defense requirement to build partnerships through targeted, non-lethal, combating terrorism (CbT) education, training, and other activities. The CTFP directly supports DoD and national goals by providing CbT education and training for mid- to senior-level international military officers, ministry of defense civilians, and security officials whose current or future responsibilities involve CbT.

The goals of the CTFP are to build and strengthen a global network of CbT experts and practitioners at the operational and strategic levels; build and reinforce the CbT capabilities of partner nations through operational and strategic-level education; contribute to the efforts to counter the ideological support to terrorism; and provide DoD with a flexible and proactive program that can respond to emerging CbT requirements and that is capable of filling identified gaps/seams in partnership strategies.

CTFP activities include a mixture of existing, traditional programs and activities designed to strengthen individual, country, and regional CbT capabilities and capacities according to the priorities of the Secretary of Defense. Activities may be conducted at U.S. military educational institutions, regional centers, conferences, seminars, mobile education units, or other education programs. A prerequisite for CTFP funding for an educational activity is that the event will provide unique CbT education as identified by a Geographic Combatant Command (GCC) and approved by the Office of the Assistant Secretary of Defense (Special Operations and Low-Intensity Conflict) (ASD (SO/LIC)).

The CTFP complements existing Security Cooperation programs and fills a current void in the U.S. Government's efforts to provide targeted CbT assistance. This program is a key tool for Combatant Commanders to foster regional cooperation and professionalize foreign CbT capabilities. Combatant Commands identify and recommend to ASD (SO/LIC) for approval CTFP participants who have a direct impact on their country's ability to cooperate with the United States in overseas contingency operations.

13. Section 333 - Foreign Security Forces: Authority to Build Capacity

10 U.S.C. Section 333 provides a consolidated DoD authority to build the capacity of national security forces. Section 333 codifies the DoD authority to conduct or support programs providing training and equipment to national security forces for the purpose of building capacity of such forces to conduct one or more of the following activities:

1. Counterterrorism operations
2. Counter-weapons of mass destruction operations

3. Counter-illicit drug trafficking operations
4. Counter-transnational organized crime operations
5. Maritime and border security operations
6. Military intelligence operations
7. Operations or activities that contribute to an international coalition operation that is determined by the Secretary to be in the national interest of the United States.

Section 333 replaces:

1. 10 U.S.C. 2282, “Authority to Build the Capacity of Foreign Security Forces”;
2. Section 1204 of the National Defense Authorization Act (NDAA) for FY 2014 (P.L. 113-66, “Authority to Conduct Activities to Enhance the Capability of Foreign Countries to Respond to Incidents Involving Weapons of Mass Destruction”
3. Section 1207 of the National Defense Authorization Act (NDAA) for FY 2014 (P.L. 113-66), “Assistance to the Government of Jordan for Border Security Operations”
 - a. ”
4. Section 1033 of the NDAA for FY 1998 (P.L. 105-85), “Authority to Provide Additional Support for Counter-Drug Activities of Peru and Colombia”

14. Section 1251 - Training for Eastern European National Military Forces in the course of Multilateral Exercises

Section 1251, FY2016, NDAA, P.L. 114-92, 25 Nov 2015, as amended, provides authority to cover the incremental expenses of certain Eastern European nations due to participation in multilateral training exercises. This authority is to enhance and increase the capacity, capability, and interoperability of Eastern European forces and to improve their ability to respond to external threats; both conventional, unconventional, or a hybrid of both.

Countries Eligible are signatory countries to the Partnership for Peace Framework (but not a member of NATO) & Countries that became a member of NATO after 1 Jan 1999. Program assistance may not be provided after 30 Sep 2018.

15. Service-Sponsored Activities

a. Academy Exchanges/Service Academy Foreign Student Program

DoD’s three service academies (the U.S. Military Academy, the U.S. Naval Academy, the U.S. Air Force Academy) conduct academic exchange programs of varying lengths and content. As with civilian exchanges, U.S. cadets and midshipmen may spend a portion of the academic year or summer training period at a comparable foreign institution while counterpart students participate in the U.S. program. In addition, the Service Academy Foreign Student Program allows up to 60 foreign students to attend each Service Academy at any one time as actual members of an Academy class (i.e., as full-time, four-year degree candidates). These activities introduce future foreign leaders, at the beginning of their careers, to their U.S. peers in an environment that is designed to promote military professionalism. The presence of foreign students in U.S. institutions also serves our foreign and national security policy interests by introducing future U.S. military leaders to individuals from the many parts of the globe to which they may deploy or work within coalition operations. The cost reflected in the report represents the cost to DoD. Some countries reimburse all or a portion of the cost of the program to the Service Academies.

b. Aviation Leadership Program (ALP)

The Aviation Leadership Program (ALP) provides Undergraduate Pilot Training (UPT) to 15-20 select international students per year from friendly, less-developed nations. ALP is a U.S. Air Force-funded program authorized pursuant to 10 U.S.C. 384. ALP consists of English-language training, Introduction to Flight Training, UPT, and necessary related training, as well as programs to promote increased awareness and understanding of U.S. democratic institutions and society. The duration of ALP is one to two years, depending on the amount of English-language training required to bring the student up to entry-level and the student's progression through the UPT program.

c. Exchanges

Pursuant to 10 U.S.C. 311, professional military education (PME) exchanges allow foreign military personnel to attend PME institutions in the United States (other than service academies) without charge, if such attendance is part of an international agreement. These international agreements provide for the exchange of students on a one-for-one reciprocal basis each fiscal year between the U.S. professional military education institutions and comparable institutions of foreign countries and international organizations.

Section 30A of the Arms Export Control Act, as amended (22 U.S.C. § 2770), authorizes the President to provide training and related support to military and civilian defense personnel of a friendly foreign country or an international organization. Such training and related support are provided by a Secretary of a Military Department. Unit exchanges conducted under this statute are authorized only pursuant to an agreement negotiated for such purposes, and are integrated into the theater engagement strategies of the relevant Combatant Commander. Recipient countries must provide, on a reciprocal basis, comparable training and related support within a reasonable period of time (which may not be more than one year) of the provision of training and related support by the United States.

16. South China Sea Initiative

Section 1263 of the NDAA for Fiscal Year 2016 (P.L. 114-92) (as amended) provides authority for the South China Sea Initiative until September 30, 2020. Section 1289 of the NDAA for Fiscal Year 2017 renamed this program as the "Southeast Asia Maritime Security Initiative." Section 1263, as amended, authorizes the Secretary of Defense, with the concurrence of the Secretary of State, to provide assistance (equipment, supplies, defense services, training, and small-scale military construction) to assist the national military or security forces that have maritime security missions as part of their respective fundamental responsibilities in Indonesia, Malaysia, the Philippines, Thailand, and Vietnam. Section 1263 may also be used to pay for training for ministry, agency, and headquarters-level organizations of these countries. Further, this section authorizes the Secretary of Defense to pay the incremental expenses (i.e., per diem, incidental expenses, and travel costs to and from the partner nation) associated with training of organizational personnel of Brunei, Singapore, and Taiwan.

17. Ukraine Security Assistance Initiative (USAI)

The purpose of this program is to provide assistance to the national-level security forces of Ukraine and the national-level security forces of Partnership for Peace (PfP) nations. This program, which is authorized under Section 1250 of the NDAA for FY 2016, provides support for Ukraine and various Partnership for Peace nations to help them develop combat capability in

order to preserve their sovereignty and territorial integrity against Russian and Russian-backed separatist aggression and to support, agreed-to, ceasefire agreements.

18. “Miscellaneous, DoD/DOS Non-Security Assistance” and “Non-Security Assistance, Unified Command”

"Non-Security Assistance, Unified Command" and "Miscellaneous, DoD/DOS Non-Security Assistance" are training funded by the DoD Combatant Command, Security Cooperation Office, or external DoD organization that were not administered by the MILDEP Security Assistance organizations, or loaded into the Defense Security Assistance Management System (DSAMS).

E. Department of Homeland Security/U.S. Coast Guard Activities

The U.S. Coast Guard routinely assists other Federal agencies such as DOS and DoD through the provision of training and technical assistance. Subject areas span the full breadth of U.S. Coast Guard core-mission areas, including maritime law enforcement, search and rescue, marine environmental protection, port security, and marine safety. As the U.S. Coast Guard has no independent authority to conduct this training, funding is provided under programs such as Anti-Terrorism Assistance, INL programs, Cooperative Threat Reduction programs, IMET, and the FMF program, among others. Countries may also use their national funds to purchase training through the FMS program.

Pursuant to 14 U.S.C. 195, the President may authorize foreign nationals to receive instruction at the U.S. Coast Guard Academy (USCGA), with the permission of the Secretary of the respective department in which the Coast Guard is operating. The number of foreign USCGA cadets may not exceed 36 at any given time. Cadets may earn a Bachelor of Science degree in one of the following disciplines:

- Naval Architecture and Marine Engineering
- Electrical Engineering
- Civil Engineering
- Mechanical Engineering
- Marine and Environmental Science
- Management
- Government
- Operations Research and Computer Analysis

The presence of foreign students at the USCGA serves to enhance international relationships with key maritime partners around the world. Normally, sponsoring governments agree in advance to reimburse the U.S. Coast Guard for all costs incurred for a cadet's training at the USCGA. Countries may request a waiver to this policy, which can only be granted by the Secretary of the respective department in which the U.S. Coast Guard is operating. Therefore, the figures provided in this report represent only those costs borne by the U.S. Coast Guard.

Countries also must agree that the cadet will serve in the comparable maritime service of his or her respective country upon graduation. An appropriate duration of service is determined by the sponsoring government.
