Report to Congress on Direct Commercial Sales Authorizations to Foreign Countries and International Organizations for Fiscal Year 2014 as Required by Section 655 of the Foreign Assistance Act of 1961, as Amended

Overview

This report covers military assistance and military exports of defense articles and defense services licensed for permanent export to foreign country governments and to international organizations during FY 2014 pursuant to Section 655 of the Foreign Assistance Act of 1961, as amended. The report specifies the aggregate dollar value and quantity of defense articles, defense services, and international military education and training activities by category, authorized to each foreign country and international organization, as well as data on the actual shipments occurring during the fiscal year. Actual shipment data contained herein shows the total dollar value of all shipments to each destination. Authorizations in this report are categorized based on the destination country. In accordance with subsection (c) of Section 655, this report is also being made available to the public on the internet through the Department of State, Directorate of Defense Trade Controls, at www.pmddtc.state.gov.

Authorizations applicable to multiple countries are included under the designation “Various.” Since documentation for shipping purposes requires a definitive destination be declared, actual shipments for those articles approved under the designation “Various” are attributed to the country listed on the shipping documentation.

The value of authorizations for defense articles and defense services does not correlate precisely to the value of articles actually transferred during this same time frame. Most licenses issued for defense articles are valid for four years and can be used throughout this period to carry out the authorized export transactions. Similarly, manufacturing license and technical assistance agreements cover a wide range of programmatic activities for multi-year periods (generally exceeding the four-year validity period of defense article export licenses). Export authorizations furnished in FY 2014 also include certain activities occurring in prior years because the scope of the Department’s regulatory authority over such agreements continues for as long as these multi-year agreements remain in effect.
